Mission Control

Phase 1, Mission 2 + Graph Explorer Workshop

Phase 1 Schedule

Phase 1 Kick-Off + The Graph 101

Recap Phase 0. Learn about basic economics in The Graph. Introduce rules and objectives for Phase 1.

Now

Setup Indexer Service + Indexer Agent

Setup Indexer Service, Indexer Agent and install Graph CLI. Run basic status check.

~1-2 Weeks

Indexer Architecture Workshop

Overview of Indexer infrastructure components and management.

Aug 25, 8am PST

Basic Protocol Actions + User Studies

Walk through basic protocol actions, including staking and signaling. Participate in user studies.

~1-2 Weeks

More Protocol Actions + User Studies

Walk through more advanced actions as they become available.

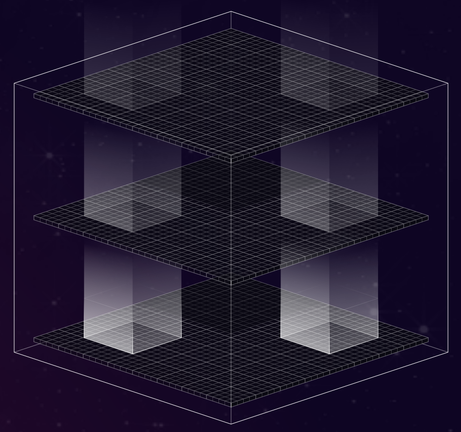
TBD

You are here!

Phase 1, Mission 1

Looking Back

Indexer Infrastructure Setup



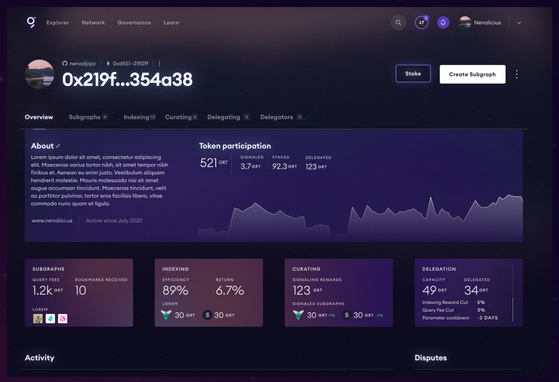
Graph CLI

Indexer Service

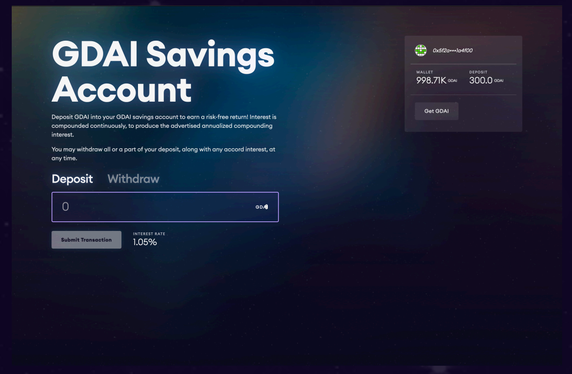
Indexer Agent

Phase 1, Mission 2

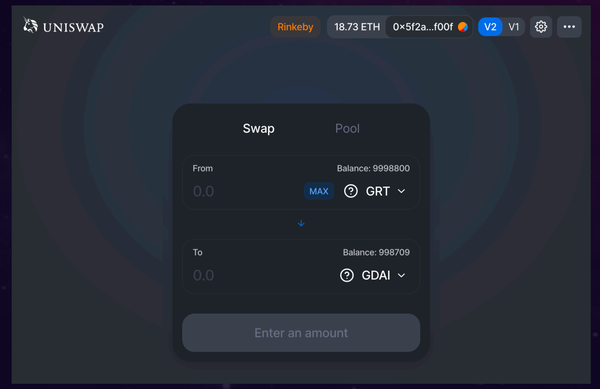
New Tools



Graph Explorer



GDAI Savings Account



Uniswap V2

Goals

1. Familiarize with basic protocol + testnet actions
2. File bugs for UI and CLI
3. Provide feedback on UI + CLI

Basic Protocol + Testnet Actions

1. Set (ENS) User Name
2. Signaling
3. Staking
4. Index a Subgraph
5. Exiting the Protocol
6. Using the GDAI Savings Rate
